

Closed Parent Facebook Policy

Our Facebook group is a 'closed' group. Parents must request permission to join. Admin will then accept or deny their request. The Facebook group is NOT open to the public. Only accepted members are able to view this page.

Only administrators can post on this page

A new Facebook group is created for each academic year to avoid a crossover of parents.

Parents give permission for their child's photo to be part of the Facebook group by signing on our registration form. Children do not have to be part of our Facebook group should their parent not wish for them to be included. They may opt out on the registration form. No photos of their child will appear on the videos.

Photos are taken on the preschool no-sim phones. These are then used for observations and the Facebook video. Once the video has been produced all photos are deleted from the phones. No photos of the children are held on any electronic devices.

Parents agree to not share photos from this page.
